### Original input profile MUTOH Wide Color Choice

For more vivid reds and deeper blacks!

Introducing MUTOH Wide Color Choice, an input profile that maximizes color reproduction of inkjet printers! MUTOH Wide Color Choice focuses on dark color areas that were previously difficult to reproduce, expanding the color range. It maximizes the performance of MUTOH inks, enabling printing with even better color reproduction than before.

### Ease-of-use functions

Automatic Bi-D adjustment/Automatic media feed correction

Adjustment and correction for each paper type is automated, reducing operator's workload

Media roll balance management

Efficient media consumption with barcode control of the remaining media

### Eco-solvent ink MS41

- Excellent outdoor durability (equivalent to 3 years), abrasion, and chemical resistance
- Low maintenance burden on operators
- Storage stability (2 year shelf life post manufacturing)
- UL GREENGUARD Gold certified
