Multi-Purpose Ink Printer

Compatible with 630mm/24" wide media

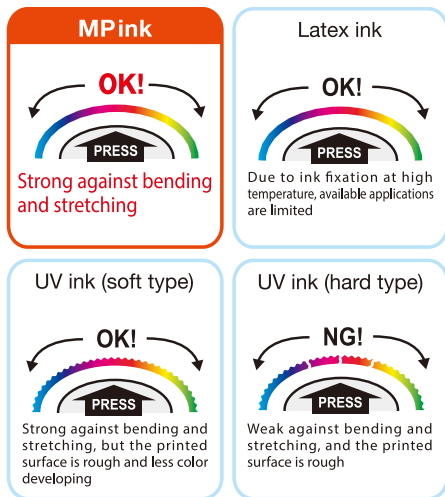

Space-saving design. Supports up to 8C, including light-color or spot-color inks, for rich expressiveness

Beautiful printing on a variety of materials
while maintaining the natural texture

- Media Flexibility** Accommodates vacuum-forming, thermoforming processing applications due to its high resistance to heat and elongation
- Strengthening expressiveness** Produces smooth surface and natural finish, preserves the original texture of the print materials
- High tolerance** Equivalent to eco solvent ink in "weather resistance*1", "abrasion resistance" and "color development"

Mult-purpose ink "MP31" achieves media flexibility

- Equivalent to eco solvent ink in "Weather resistance"*1, "Abrasion resistance", "coloring property" *1 Except for orange ink
- Produces smooth surface and natural finish, preserves the original texture of the print materials
- Fit vacuum forming, thermoforming processing applications because it is resistant to heat and elongation

User-friendly functional capability

Brower heater accelerates gentle drying the printed surface to provide consistent print quality

Wider opening helps ease of daily maintenance

[Space saving design]
Easy installation stand as standard equipment

*10kg take-up unit is optional

MUTOH Genuine RIP Software(Optional)

- High quality technology to optimize the performance of MUTOH printers
- Two preview functions can reduce mistakes and waste
- Workflow efficiency

*VerteLith does not support spot color inks. Please contact your authorized dealer for information on supported RIP software.

MUTOH Status Monitor (MSM)

monitoring the printer's operation status in real time

MSM enables you to confirm printing data volume, ink consumption, printing performance, statistical information, cost, etc. through the print history.

It requires user registration to download MSM.
